

Teachers,

If students have bad internet or no internet, here are the help steps to get them in touch with the county. Share this page.

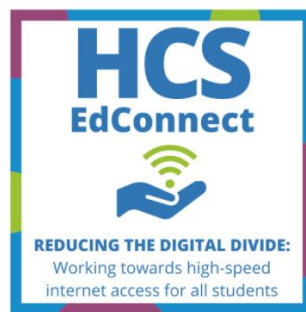

1. Have them go to the county website

2. Click on this site

3. Next, look for this information down the middle of the page...

Would your students benefit from having EPB WIFI in your home at no-cost to you or your family? HCS is proud to be partnering with EPB to provide high-speed internet at no-cost to over 28,000 income-eligible students in the district. Even if you already have WIFI in your home or on your personal cell phone, you could still be eligible for HCS EdConnect. If you have questions about the program, [CLICK HERE](#) for more information. For questions specifically about your student's eligibility, please contact your child's school.

4. Have them click here...
